CAREER OBJECTIVE

Throughout my career as a software developer, I've focused on developing scalable and well-documented code. I enjoy working collaboratively but can also run with projects on my own. And also, I want to be a part of an organization where the management structure recognizes and rewards the loyalty, honesty, hard work & ambition of an employee by providing growth opportunities and necessary infrastructure that could contribute to the success of the company.

WORK EXPERIENCE

Senior Front-End Developer

TechSoft PVT IT Services

August 2013 - February 2019 / Lucknow, U.P, India

- Developed an in-house web app using Node, React, HTML/CSS that allowed for employees to manage and recommend books to other employees to streamline monthly recommendations

- Worked alongside product managers to re-architect a multi-page web app into a single page web-app built in React resulting in a yearly revenue lift of $1.1M

- Worked on the Payments team to save over 50,000 customers time and improve cash flow through the development of modern, responsive customer experiences

- Worked closely with the product team to re-configure the processing of invoices, saving customers over 125,000 manual hours of work per month

- Mentored 3 junior front end developers on the team on React and documentation best practices within the organization
